

### MR-9224

The MR-9224 is a direct-drive rotational stage. It features high mileage, torque and speed combined with highest accuracy. It is mechanically compatible to our stages of the series CLS-92 and MLS-92.

	Mechanical
Travel [°]	∞
Continuous Torque [Ncm]	> 10
Peak Torque [Ncm]	> 30
Max. Normal Force [N]	50
Dimensions [mm]	92 x 92 x 24
Weight [g]	650
Aperture [mm]	25
	Material
Base Material	Aluminum, black anodized
	Open-loop
Angular Velocity [°/s]	3000
	Closed-Loop
Sensor Resolution [μ°]	< 2
Uni-Directional Repeatability [μ°]	40
Angular Velocity [°/s]	3000
