

Software and Graphical User Interface

Introduction

Included with every PICOSCALE is an extensive software bundle with drivers, libraries, LabVIEW® VI's as well as a variety of supplementary documents. All functions of the device are explained in the PICOSCALE User Manual and the most common applications are explained in short User Guides. If you still need support, please do not hesitate to contact our well-trained technical sales team. Every PICOSCALE is delivered with a graphical user interface to configure the device. All firmware modules can conveniently be addressed with a few clicks. Furthermore, all data sources can be monitored in customizable panels. The data can be directly displayed in a time series or pre-processed to show spectra or spectral densities, for example. The free and very open software eases the use of the PICOSCALE and makes your work very efficient.
